

INFRASTRUCTURE IMPROVEMENT COMING

FLINT SEWER PUMP STATION

Additional wastewater pump station to service the Flint development area and surrounding area.

WHY?

Most sewage flows to the treatment plant by gravity in pipes. Sometimes the terrain requires the flow to be pumped over a ridge to the treatment plant. An additional wastewater pump station is needed to handle the new and future development in the Flint Commerce Center and surrounding area.

Benefits of the project include:

- ✓ Meet the growing demand for wastewater system services in De Soto.
- ✓ Provide capacity to meet federal and state regulations for the wastewater collection system.
- ✓ Increase resiliency in the wastewater collection system.

WHAT?

Collection system expansion includes construction of a new wastewater pump station.

WHERE?

K-10 and Edgerton Road

WHEN?

Engineering design was conducted from October 2022 to March 2023. The project construction is expected to start in Fall 2023 with completion Fall 2024.

WHO?

- **Owner:** City of De Soto
- **Developer:** Flint Development
- **Engineer:** BCH
- **Contractor:** tbd

The City of De Soto is committed to informing residents and businesses about what they can expect and how they can provide input into infrastructure improvement projects.

Check out the interactive map that details major infrastructure projects online. Residents can find detailed information about each city infrastructure project – including contact information. Go to: desotoks.us/projects

WHAT SHOULD I EXPECT?

CONSTRUCTION PHASE: You can expect heavy equipment and trucks, travel delays, and nuisance dust and noise during construction and installation. Generally, hours of operation for construction are limited to 7 a.m. to 7 p.m. M-F and other times with special permission. Roads may be temporarily closed, and utility services shut off for short periods of time. Delays and changes in travel routes can be expected throughout construction. There may be reduced access to property, sidewalks, and driveways.

How will I know what is happening, when?

www.notifyjoco.org

Any access or service interruption to property along the construction route is given in advance. We'll do our best to notify everyone impacted by infrastructure project work, especially if there are closures or disruption in service. We use door hangers, mail letters, post information on the City's website, and use Notify Jo Co (please sign up for it at left).

What will be restored following construction?

Trees, walls, sidewalks, fences, grass, plantings, monument signs, etc. will be restored if damaged due to construction activities.

SCHEDULE

Study/Design:

October 2022 to March 2023

Pre-Construction/Field Investigations: Spring 2023

Final Design: March 2023

Construction:

Fall 2023 to Fall 2024

Operations: December 2024
